

# Nutritional Deficiency / Heavy Metal / Toxin Screening

Same-Day Results within Minutes

## HEAVY METALS:

Lead  
Mercury  
Cadmium  
Chromium  
Arsenic  
Antimony  
Thallium

## TOXINS:

Stimulating Beverage  
Electromagnetic Radiation  
Tobacco/Nicotine  
Toxic Pesticide Residue

## COENZYMES:

Nicotinamide  
Biotin  
Pantothenic Acid  
Folic Acid  
Coenzyme Q10  
Glutathione

## VITAMINS:

A  
B1  
B2  
B3  
B6  
B12  
C  
D3  
E  
K

## AMINO ACIDS:

Lysine  
Tryptophan  
Phenylalanine  
Methionine  
Threonine  
Isoleucine  
Leucine  
Valine  
Histidine  
Arginine

## MINERALS:

Calcium  
Iron  
Zinc  
Selenium  
Phosphorus  
Potassium  
Magnesium  
Copper  
Cobalt  
Manganese  
Iodine  
Nickel  
Fluorine  
Molybdenum  
Vanadium  
Tin  
Silicon  
Strontium  
Boron

## Cellular Health Screenings

Takes only 4 minutes

Affordable

400% More Info  
than Blood Testing

Non-Invasive

*Cellular Screening is more accurate than Blood panels since the body quickly removes toxins from the blood to store in tissue which reduces the harm. Lead is stored in bones & tissue. Trace elements like Zinc & Magnesium are found in the cells, NOT in the blood. When the body needs calcium, it removes it from the bones, hiding a deficiency. Blood panels are historically inaccurate.*

*Cellular Screening identifies groups of 10+ Damaged cells for accurate early warning. Re-screening after 2 weeks will show if your detox, lifestyle, nutrition/supplement changes are working.*

*Cellular Screening is for educational purposes only and is not intended to Diagnose, Heal or Cure.*
